

FUEL PRESSURE TESTER

For the pressure and leak
testing of fuel systems

Fuel system pressure tester LR 180_AK2
Ref. No. 041620_2

Carrying case complete with adapters

DESCRIPTION:

- Pressure and vacuum gauge
- Can also be used to test the induction side of the fuel pump
- Sight glass feature permits identification of air bubbles
- Special adapters for vehicles with quick fit plastic connectors

**Tests both:
petrol and diesel fuel systems.**

OTHER ADVANTAGES:

- Easy to use by means of quick couplings
- Fuel flow can be observed
- Plexiglass block and adapter compatible with other LR kits such as LR 180/2 and /4

DIN EN ISO 9001:2000
Reg.no. 12 100 24343 TMS
